Update on Environmental Monitoring & Audit Manual

The EM&A Manual for the Project was updated based on the findings in the Environmental Review Report (November 2015) submitted to EPD to support the application for Variation for an Environmental Permit (VEP-487/2015). In accordance with Paragraph 5.1 of the Environmental Permit (FEP-01/395/2010/C), the revised EM&A Manual was certified by the ET Leader and verified by the IEC. We are pleased to submit 3 copies of the revised EM&A Manual together with CD ROM for your approval.

The changes are updated emission level in Table 2.2. The amendment history in page 2 of the EM&A Manual summarized the overall changes.

Yours faithfully,
